Experience

Technoshine Trading International **January 2026 – April 2026**
Full stack Developer Intern

- Developed a complete web-based management system for the Fraternal Order of Eagles from front-end to back-end implementation.
- Improved the system by implementing an administrative dashboard for managing users, records, and system data.
- Collaborated with the development team to implement new features and maintain existing applications.

Video Editor and Content Creation

- Assisted with the company's video and digital content creation.
- Created and edited video content, primarily FAQ and informational videos.
- Applied motion graphics, text animations, and visual effects to enhance video content.
- Produced high-quality video content for the company's social media and promotional needs.

National Data Research Examiner and Marketing Services Inc. **August 2026**
Assistant Graphics Designer

- Created up to 3 video content pieces per day based on the company's concepts and ideas.
- Designed and edited high-quality static graphics for the company's social media platforms.
- Created business cards, magazine layouts, and other promotional materials for the organization.

Projects

OkSi: An Environmental Monitoring and Watering System for Okra and Siling Labuyo Cultivation in Urban Farming | *React, C++, IoT*

- Built a cross-platform mobile application using React Native (Expo) for remote monitoring, notifications, and environmental data visualization.
- Integrated the mobile application with cloud services to enable real-time synchronization between the IoT device and users.

Ang Agila | The Fraternal Order of Eagles | PHP, MySql

- Built a web-based Fraternal Order of Eagles management system using PHP, MySQL, HTML, CSS,and JavaScript.
- Designed and implemented both the user interface and server-side logic for member management and data processing.
- Implemented an ID scanning feature to streamline member verification and information access.
